

## **Complete Instrumentation Systems.**

*We provide complete instrumentation systems for both industrial and environmental applications.*

### *Industrial applications include*

- **IPC licence Compliance**
- **surface water divert monitoring and control systems**
- **complete flow sampling and parameter monitoring in municipal and industrial waste water treatment plants**
- **product loss monitoring.**

*We provide:*

- **Enclosures/panels** ....with complete wiring , termination, fuse protection, drawings.
- **Kiosks**..... all sizes including fuse board sockets lighting etc.
- **Small scada systems** ..... for example Eurotherm 6100A system
- **telemetry and data hosting**..... ISCO, IDS Ijinus and Sofrel telemetry systems.

### *Environmental applications include :*

- **surface water**
- **lake and river monitoring**
- **sewer and CSO networks**

*We provide :*

- **level and water quality sensors**..... Isco,Ponsel, Ijinus,Insitu,IDS,
- **low power logger**.....ISCO, IDS ,Ijinus, Sofrel
- **buoys**..... IDS, Ponsel
- **weather stations**.....IDS, Ijinus
- **GPRS Modems, complete telemetry systems** ..... ISCO,IDS ,Ijinus, Sofrel
- **Data hosting and customer exclusive customised website** .... ISCO, IDS ,Ijinus, Sofrel
